

we learn, we build, we play with
LEGO® Bricks

BRICKS 4 KIDZ programs provide an extraordinary atmosphere for students to build unique creations, play games, and have loads of fun using LEGO® bricks. The activities are designed to trigger children's lively imaginations and build their self-confidence. They are encouraged to invent stories, and design and build models while constantly expanding on their ideas and finding new ways to express them. The program is accredited by STEM. Students are encouraged to further their experience by completing STEM worksheets. Once the worksheets are completed, the students can turn them in for a reward!

Shiver me timbers as we explore the popular culture behind the life of a pirate! Build a motorized pirate ship, a helm and an anchor, as we batten down the hatches and prepare for mutiny. Protect the hands on deck by building a launching trebuchet. Beware me mateys, if it's too late, you must abandon ship and build a rowboat to escape. Watch out for crocodiles! Anchors aweigh!
